## DEAR CUSTOMER, THANK YOU FOR PURCHASING OUR PRODUCT!

Please read the full instructions carefully before use. It is recommended to use only the original battery, charger and accessories included in the kit with the device. Neither the manufacturer nor the distributor is responsible for the use of third party accessories. (The functions listed in this manual may vary slightly between models as the manual is a general description of the smartwatch, some models may differ from the standard). The device should be charged for at least 2 hours before first use. Before using the device, you must download the app, install the app and accept all permissions, otherwise all functions will not be available. The company reserves the right to change the content of this manual.

### TOP BUTTON

Top button: long press to turn the watch on/off; press to wake the screen and turn it off; short press to return to the main screen. The metal plate is used to take ECG measurements. Hold to complete the circuit

### CHARGING

The smartwatch is charged using a magnetic charger. Make sure the metal contacts of the charger are in place with the metal contacts of the device. A full charge usually takes 2 hours, the device is on standby for up to 30 days, 5-10 days of work. Do not use the watch while charging

### APPLICATIONS

Android phone users are looking for, "WoFit" app to download on Google Play and iOS users can download the app on the AppStore. Open the "WoFit" app - settings - bluetooth - search for 'smart device' and connect. When the Bluetooth icon on the watch is blue, it means the connection is active, while red means there is no connection.

### FUNCTIONS

- Language/Time/Date: After a successful connection with the phone, the functions are synchronized
- Status bar: displays bluetooth status, HPlusFit app QR code, brightness level and battery level
- Pedometer / Distance / Calories: displays the data of the day, at midnight this data is saved and reset. The saved data can be checked by clicking on the function, there is a history

- Messages: After successfully connecting with the phone, we can receive calls and SMS messages and notifications from Facebook, WhatsApp among others. The watch will vibrate with incoming notifications.
- Sports: There are several sports modes to choose from. After selecting the sports mode, click on the selected icon. Click in the middle of the screen to start your workout. Use the bottom button to pause or end the workout and save the result.
- Sleep monitor: The smartwatch automatically measures your sleep quality from 22:00 to 08:00. You can find the exact data in the app.
- Health. Measurements can be taken:
  - Pulse
  - Blood pressure
  - ECG
  - Blood oxygenation
- Stopwatch: press start to start the countdown, press again to pause
- Control the music playing on your smartphone
- Alarm
- Sedentary: reminds you to sit for too long and to keep moving
- Bright screen when you move your wrist: start it in the app, when you turn it on it uses more power

### PRECAUTIONS

1. Weak battery: In the event of a low battery, charge the device immediately to protect battery life.
2. Charging: Do not use the watch while it is charging.
3. Do not use the watch while charging above 50 degrees Celsius may lead to overheating, deformation and burning of the device.
4. Please do not swim, dive or operate the device underwater.
5. The device uses a built-in battery and it is prohibited to disassemble it by yourself.
6. Avoid contact with eyes and skin in case of battery rupture and leakage.

### IMPORTANT INFORMATION

- 1.Security:
  - Clean the watch with a soft cloth to preserve the watch and strap clean. (use clean water or sea water)
  - Make sure the heart rate lens on the watch is close to your skin
  - the skin temperature on your wrist is too low due to the weather, which will affect your heart rate control.

2. Notes on water resistance (even though it is a waterproof watch): pay attention to the following methods as they deteriorate waterproofing.
  - Please do not wear the watch in the shower.
  - Do not wear the watch in a heated pool, sauna or other high temperature/humidity environment.
  - Do not wear the watch when washing hands or face or when working where soap or detergent is used.
  - Be sure to wash any salt or dirt off the watch after immersion in the sea.
